

Fabricated Square Edge Stair Nose and Treads

Stairs deserve the same attention to detail and design as your wood flooring. Poor tread construction and color match can cheapen the look of your high end floors. Our fabricated nosing and treads are made with the exact same material as your floor and guarantees the best match possible. The square edge detail on our treads is consistent with current design trends.

Rhone XL Planks

Rhone Hardwood offers the longest average length plank in the industry. In each carton of Rhone Hardwood flooring, at least 50% of the square footage will be represented as full-length planks. Most products in the industry will use the language "up to" but never specify how many long planks are provided in each carton. Longer planks provide greater visual continuity to your space and show the true unique beauty of mother nature.
