

Fabricated Square Edge Stair Nose and Treads

Stairs deserve the same attention to detail and design as your wood flooring. Poor tread construction and color match can cheapen the look of your high end floors. Our fabricated nosing and treads are made with the exact same material as your floor and guarantees the best match possible. The square edge detail on our treads is consistent with current design trends.

BURGUNDY COLLECTION

ALMONDINE OAK

SPECIES: AUTHENTIC FRENCH WHITE OAK
 WIDTH: 8"
 THICKNESS: 3/4"
 LENGTH DESCRIPTION: 23" TO 86" RANDOM 50% SQ. FT. FULL LENGTH PLANK
 FINISH: DURAART+™ HIGH PERFORMANCE NATURAL OIL
 TEXTURE: LIGHT WIRE BRUSH, ARTISAN SCULPTED, DISTRESSED
 GRADE: CHARACTER
 CONSTRUCTION: SAWNPLY+™ 4 LAYER BALANCED SOLID HARDWOOD
 - 5MM SAWNPLY+™ WEAR LAYER (COLOR-DEPTH TECHNOLOGY)
 - 8MM HARDWOOD CORE SLATS
 - 1MM HARDWOOD STABILIZATION LAYER
 - 5MM SAWNPLY+™ BALANCED LAYER

INDOOR AIR QUALITY: FLOORSCORE-CERTIFIED FOR SUPERIOR INDOOR AIR QUALITY
 ECOSMART: PEFC CERTIFIED MANUFACTURER
 FINISH WARRANTY: LIFETIME RESIDENTIAL & 3 YEAR COMMERCIAL
 STRUCTURE WARRANTY: LIFETIME
 INSTALLATION: NAIL, STAPLE, GLUE DOWN, AND FLOAT
 RADIANT HEAT: YES

NOTE: EXPECT TO SEE VARIATIONS IN COLOR, GRAIN, CHARACTER (INCLUDING KNOTS), & BLACK FILL FROM PLANK TO PLANK AND SAMPLE TO SAMPLE.

Rhone XL Planks

Rhone Hardwood offers the longest average length plank in the industry. In each carton of Rhone Hardwood flooring, at least 50% of the square footage will be represented as full-length planks. Most products in the industry will use the language "up to" but never specify how many long planks are provided in each carton. Longer planks provide greater visual continuity to your space and show the true unique beauty of mother nature.

DuraArt+™ High Performance Natural Oil

DuraArt+™ Zero VOC High Performance Natural Oil is well suited for residential and commercial spaces. **DuraArt+™ High Performance Natural Oil finish allows you to simply repair surface scratches and refresh high-traffic areas without the need to disturb your entire space.** Other typical urethane finishes require complete sanding and refinishing of the entire floor to repair damage. DuraArt+™ only requires simple maintenance that cleans and revitalizes your finish in one step, saving you money and time.

Color Depth Technology

Color Depth Technology results in unsurpassed performance in the hardwood flooring industry, providing superior wear and durability. It's unique "through body color" wear layer with enhanced hardness and stability. Rhone's specialized heat-infused fuming and carbonizing process naturally transforms the wood to create permeated color throughout the SawnPly™ surface. The "through body color" minimizes unsightly scratches and allows for simple repairs, unlike a typical surface stained wood floor.

	SawnPly+™ Technology by Rhone	Sliced Face Competitor	Rotary Peeled Competitor
Wear Layer Appearance	SawnPly+™ delivers lively grain and texture that is identical to the timeless beauty of solid hardwood flooring	Similar to solid hardwood but a more repetitive pattern	Large cathedral graining creates unattractive plywood visuals
Construction	SawnPly+™ construction maintains superior integrity of the cut surface when bonding each sawn layer together	Slicing wood layers crushes the bonding surface compromising the adhesion of each layer	Rotary peeling wood layers crushes the bonding surface compromising the adhesion of each layer
Stability Performance	SawnPly+™ creates the most dimensionally stable hardwood flooring in a wider range of climates	Slicing exhibits fracturing and knife-checking. It is also more susceptible for cupping and end peaking in wet and dry climates	Rotary peeling is more susceptible for cupping and end peaking in wet and dry climates

SawnPly+™ Solid-Balanced Construction

The 100% pure hardwood construction of SawnPly+™ creates the most durable and balanced construction available. **SawnPly+™ is substantially more stable than typical plywood core hardwood flooring.** SawnPly+™ Solid-Balanced construction can be installed in climates from dry mountain areas to humid coastal regions all while maintaining exceptional performance and beauty for generations.
