

### BASIC CARE AND CLEANING TIPS

It is only natural that hardwood wall panel will show signs of wear over time. You can expect years of beauty from your wall panel by observing a few precautions and maintaining a regular cleaning and maintenance routines.

- Sweep or vacuum regularly to rid the wall panel of dust and grits.
- Never flood or wet the wall panel with water or any other liquid or cleaning products. Severe damage may occur that void the warranty.
- Wipe-up spills immediately with damp cloth.
- Exposure to sunlight with its UV ray accelerates oxidation and aging of materials. This may change the color of the wall. Use drapes or other system to protect your paneling from excessive light

**NOTE:** To maintain a consistent room temperature of 75° F (24° C) and relative humidity of 40% to 60% RH, air conditioning and heating systems shall be in place and operational at all times (occupied and unoccupied houses).
